

STANDOUTS

Mount your prints on a light-weight but sleek looking material that is ready to hang out of the box. No framing necessary!

A standout is a sleek, high-end looking mounting option that is sure to impress. Stand on your desks, countertops or hang on the wall. Standouts are available in two different depths with your choice of white or black textured edging. Although the standout is considered a mounting option, it will arrive ready to hang, out of the box, with four holes applied to the back, to ensure an easy hang.
